Unveiling of 2007 field components - Gordon Atrium (lower level)

12:45 PM: Team meeting rooms available

7:00 PM: Team meeting rooms close

Notes

Directions: Directions to the RIT campus can be found [here](#).

Parking: Due to the construction in and around the Engineering building, all persons should park in S-lot ([see campus map](#)).

Attendance: **FIRST** requires that each remote site provide a limit to the number of team members allowed to attend the kickoff (many sites have limited space). No such restriction is in effect for the RIT sponsored kickoff. Please contact [Bill Scarbrough](#) with your projected attendance estimates, and whether or not you are interested in meeting with your team in one of the provided breakout rooms following the satellite broadcast.

Kits: Due to space limitations, no more than two team representatives will be allowed in the KOP distribution area. KOP pickup badges will be distributed at registration - please don't misplace them!

Lunch: We will not be selling pizza this year. Each team should make arrangements for lunch; a list of local vendors will be made available. Many will provide delivery to campus. In the spirit of gracious professionalism, we ask that each team make a sincere effort to clean up after themselves.
